

DeNovo is the proud winner of this year's Green Agenda Award, which recognized our efforts to reduce the carbon footprint of our operations.

DeNovo was selected by the Trinidad and Tobago Chamber of Industry and Commerce for the National Gas Company sponsored award.

As a greenfield company, we have been driven to continuously find new and innovative ways to embed 'green' into the way we operate, and it has formed part of our business model without compromising on safety. Our success with Zandolie is the latest example.

We will continue to innovate safely while creating cleaner and greener solutions to find and produce untapped hydrocarbons. As a company and industry, these twin goals will ultimately drive our efforts to support national development and embrace the energy transition.
